GS IV Ethics Paper 2018

Section B

7. Rakesh is a responsible district level officer, who enjoys the trust of his higher officials. Knowing his honesty, the government entrusted him with the responsibility of identifying the beneficiaries under a healthcare scheme meant for senior citizens. The criteria to be a beneficiary are the following :

- (a) 60 years of age or above.
- (b) Belonging to a reserved community.
- (c) Family income of less than & 1 lakh per annum.
- (d) Post-treatment prognosis is likely to be high to make a positive difference to the quality of life of the beneficiary.

One day, an old couple visited Rakesh's office with their application. They have been the residents of a village in his district since their birth. The old man is diagnosed with a rare condition that causes obstruction in the large intestine. As a consequence, he has severe abdominal pain frequently that prevents him from doing any physical labour. The couple have no children to support them. The expert surgeon whom they contacted is willing to do the surgery without charging any fee. However, the couple will have to bear the cost of incidental charges, such as medicines, hospitalisation, etc., to the tune of & 1 lakh. The couple fulfils all the criteria except criterion 'b'. However, any financial aid would certainly make a significant difference in their quality of life. How should Rakesh respond to the situation ?

Section B

8. As a senior officer in the Ministry, you have access to important policy decisions and upcoming big announcements such as road construction projects before they are notified in the public domain. The Ministry is about to announce a mega road project for which the drawings are already in place. Sufficient care was taken by the planners to make use of the government land with minimum land acquisition from private parties. Compensation rate for private parties was also finalised as per government rules. Care was also taken to minimise deforestation. Once the project is announced, it is expected that there will be a huge spurt in real estate prices in and around that area. Meanwhile, the Minister concerned insists that you realign the road in such a way that it comes closer to his 20 acres farm house. He also suggests that he would facilitate purchase of a big plot of land in your wife's name at the prevailing rate which is very nominal, in and around the proposed mega road project. He also tries to convince you by saying that there is no harm in it as he is buying the land legally. He even promises to supplement your savings in case you do not have sufficient funds to buy the land. However, by the act of realignment, a lot of agricultural land has to be acquired, thereby causing considerable financial burden on the government, and also displacement of the farmers. As if this is not enough, it will involve cutting down a large number of trees, denuding the area of its green cover. Faced with this situation, what will you do? Critically examine various conflicts of interest and explain what are your responsibilities as a public servant.

GS IV Ethics Paper 2018

Section B

9. It is a State where prohibition is in force. You are recently appointed as the Superintendent of Police of a district notorious for illicit distillation of liquor. The illicit liquor leads to many deaths, reported and unreported, and causes a major problem for the district authorities. The approach till now had been to view it as a law and order problem and tackle it accordingly, Raids, arrests, police cases, criminal trials - all these had only limited impact. The problem remains as serious as ever. Your inspections show that the parts of the district where the distillation flourishes are economically, industrially and educationally backward. Agriculture is badly affected by poor irrigation facilities. Frequent clashes among communities gave a boost to illicit distillation. No major initiatives had taken place in the past either from the government's side or from social organisations to improve the lot of the people. Which new approach will you adopt to bring the problem under control?

GS IV Ethics Paper 2018

Section B

- 10.** large scale. It proposes to set up an additional unit. Many States rejected its
g aside all opposition.

The unit was set up 10 years ago and was in full swing till recently, The pollution caused by the industrial effluents was affecting the land, water and crops in the area. It was also causing serious health problems to human beings and animals. This gave rise to a series of agitations demanding the closure of the plant. In a recent agitation thousands of people took part, creating a law and order problem necessitating stern police action. Following the public outcry, the State government ordered the closure of the factory.

The closure of the factory resulted in the unemployment of not only those workers who were engaged in the factory but also those who were working in the ancillary units. It also very badly affected those industries which depended on the chemicals manufactured by it.

As a senior officer entrusted with the responsibility of handling this issue, how are you going to address it ?

GS IV Ethics Paper 2018

Section B

- 11.** Dr. X is a leading medical practitioner in a city. He has set up a charitable trust through which he plans to establish a super-speciality hospital in the city to cater to the medical needs of all sections of the society. Incidentally, that part of the State had been neglected over the years. The proposed hospital would be a boon for the region. You are heading the tax investigation agency of that region. During an inspection of the doctor's clinic, your officers have found out some major irregularities. A few of them are substantial which had resulted in considerable withholding of tax that should be paid by him now. The doctor is cooperative. He undertakes to pay the tax immediately. However, there are certain other deficiencies in his tax compliance which are purely technical in nature. If these technical defaults are pursued by the agency, considerable time and energy of the doctor will be diverted to issues which are not so serious, urgent or even helpful to the tax collection process. Further, in all probability, it will hamper the prospects of the hospital coming up. There are two options before you : Taking a broader view, ensure substantial tax compliance and ignore defaults that are merely technical in nature. Pursue the matter strictly and proceed on all fronts, whether substantial or merely technical. As the head of the tax agency, which course of action will you opt for and why?

GS IV Ethics Paper 2018

Section B

12. Edward Snowden, a computer expert and former CIA systems administrator, released confidential Government documents to the press about the existence of Government surveillance programmes. According to many legal experts and the US Government, his actions violated the Espionage Act of 1917, which identified the leak of State secrets as an act of treason. Yet, despite the fact that he broke the law, Snowden argued that he had a moral obligation to act. He gave a justification for his “whistle blowing” by stating that he had a duty “to inform the public as to what is done in their name and that which is done against them. According to Snowden, the Government’s violation of privacy had to be exposed regardless of legality since more substantive issues of social action and public morality were involved here. Many agreed with Snowden. Few argued that he broke the law and compromised national security, for which he should be held accountable. Do you agree that Snowden’s actions were ethically justified even if legally prohibited? Why or why not? Make an argument by weighing the competing values in this case.
